```cpp
#include<iostream>
#include<string>
#include "ll_pro.h"
using namespace std;;

int main()
{
    //sorted linkde_list
    linkedlist<string> l1;
    l1.push_back("A");
    l1.push_back("A");
    l1.push_back("A");
    l1.push_back("S");
    l1.push_back("S");
    l1.push_back("H");
    l1.push_back("H");
    l1.push_back("H");
    l1.remove_dupes();
    cout << "ALL OK\n";
    l1.display();

}
```
